## Quality

By booking with an experienced, professional wedding photographer, you are assured that your day will run more smoothly, and that greater care and attention will be paid to every aspect of the photography.

Photos are usually taken on professional high resolution digital cameras which allow enlargements of greater size and quality than "consumer" models.

*Several services can now be arranged online, including viewing your photos; see my website.*

Please ring the number on the cover to arrange to see a portfolio of photos and discuss your requirements as each wedding is different.

I have full insurance cover.

## Coverage

I will cover the day, from the bride's leaving address (extra cost for economy packages), through the ceremony, to the reception, up to a "cake cutting" photo prior to the meal. Additional coverage (eg. for the evening) is £50 per hour thereafter. Photos will include a wide coverage, many formal but also informal (reportage) photos. The scenery at the wedding and reception venue will determine where the majority of photos are taken (as will the weather!). Approximately 150-500 photos to choose from depending on the package booked. Should you think of any unusual photos you'd like taking, feel free to write a list. Your relatives may also want to add to this list. Please make sure I get this list before the day.

## Reportage / candid & traditional photographs

In every package I usually take a good selection of "reportage"/ informal / candid photos as well as the traditional formal style photos. If you wish the proportion of these to be increased, please let me know.

## Online

Your wedding photos can be viewed online via my website within days of the wedding (even while you are on honeymoon!), and reprints, enlargements etc ordered by you and your guests. This service is FREE

## Black & White / Sepia / monochrome

Digital images can be printed as colour or B&W / sepia. This is FREE.

## Retouching / image manipulation / enhancement of photographs

With the latest technology, a vast range of work can be done on photographs, from simple "eye opening", to spot colour (see example on front colour); the range is only limited by imagination. Cost of any manipulation work; £50 per hour.

## Disks of images

I can also provide a disk of all the images in addition to any album chosen. This can be in the form of a slideshow to music or as individual high resolution images (£195).
